Name / Visual Designer

Industrial Technology Products

About Me

I specialize in visual design and commercial communication for industrial technology products, translating complex hardware and technical features into clear, credible, high-conversion marketing visuals.

Core Experience

- Product marketing posters
- Global visual localization
- Engineering scenario building
- AI-assisted visual creation

Design Skills

- Visual design
- Marketing design
- Brand system
- Product rendering

Tools

- Photoshop / Illustrator
- Figma
- Blender / C4D
- Midjourney / ChatGPT

Capability Map

Brand Visuals

Poster / Banner /
Exhibition

Extend brand identity
across commercial
touchpoints.

Product Storytelling

Retouching /
Compositing / Scenarios

Turn technical products into
trustworthy visual assets.

AI Creativity

AI scene generation /
Global KV

Accelerate concept
exploration and production.

Localization

English / French / Arabic
Adapt copy length, reading
direction, and layout gravity.

TOKNAV RTK Marketing Visual System

A global marketing visual upgrade for industrial positioning and surveying products.

T20Pro

CHARACTERISTIC

- 32GB
- Quick positioning function
- Built-in 5W Radio
- 1408 channels
- Centimeter level
- 4G+WIFI+BT+NFC
- Combined antenna
- LCD display
- IP68 design
- Linux intelligent system

SIZE
(mm)

80.7 90.7

Challenge & Goal

Challenge

- Limited premium technology perception
- Inconsistent global visual language
- Product benefits were difficult to understand

Goal

- Build a unified technology-driven look
- Strengthen professional credibility
- Improve marketing production efficiency

Precision, Reliability, Technology

Direction

Industrial technology style, global hardware advertising, and a premium dark tone.

Color System

Technology blue, deep gray, and fluorescent accents build a professional, high-contrast advertising feel.

Visual Logic

Precision, stability, and reliability are expressed through scenario, lighting, and product detail.

SS Receiver

Guangzhou Toksurvey Information Technology Co., Ltd

Multilingual Visual Adaptation

Within one visual framework, English, French, Arabic, and other markets are adapted by handling text length, reading direction, and layout gravity.

CHARACTERISTIC

- 32GB
- Quick positioning function
- Built-in 5W Radio
- 1408 channels
- Centimeter level
- 4G+WIFI+BT+NFC
- Combined antenna
- LCD display
- IP68 design
- Linux intelligent system

SIZE
(mm)

Caractéristiques

- 1408 canaux
- Précision au centimètre
- Connectivité 4G, WIFI, Bluetooth et NFC
- **Lora Radio de 5W, portée de transmission plus de 20km**
- Autonomie longue de 18h

From Brief to Deliverable

01

Brief

Define audience, product, channel, and campaign goal.

02

Prompt

Explore visual direction with structured AI prompts.

03

Composite

Combine product, scene, lighting, and copy hierarchy.

04

Retouch

Polish product detail, atmosphere, and brand consistency.

05

Final

Export campaign-ready assets for multiple channels.

Brand Marketing Poster Design

A poster system that unifies product launches, feature campaigns, exhibitions, and social media assets.

- 1408 channels
- 32GB, User storage space 24GB
- Centimeter level
- 4G + Bluetooth + WiFi + Radio
- Combined antenna
- Adjustable power
- OLED
- Transmission distance maximum 16km
- Linux intelligent system
